

# The LanGuide results analysis app

## *A short user's guide*

## 1. Purpose

The LanGuide Results Analysis app enables:

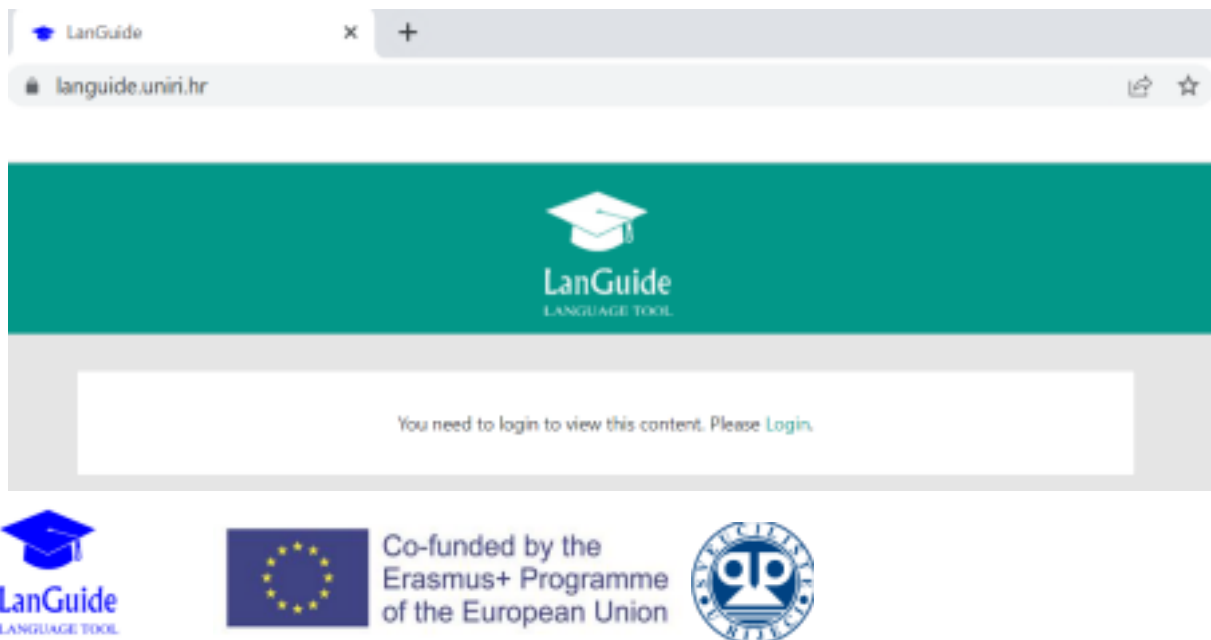

- Examining data on language learners who are using the LG Language Learning app,
- Tracking language learning progress with the LG Language Learning app,
- Presenting users' learning results based on a selected criterion,
- Downloading data about users and their activity.

## 2. Access and credentials

- The LanGuide Results analysis app is a web-based app and can be accessed at <https://languide.uniri.hr/>
- Project members have already been granted access to the app by generating appropriate credentials (*username & initial password*) • access rights may be obtained by using the *Join Us* option near the bottom of the sign in form or by contacting the app administrator at [mbrkic@uniri.hr](mailto:mbrkic@uniri.hr)

## 3. Login

- In order to start working with the app, choose Login on the start page of the official website.

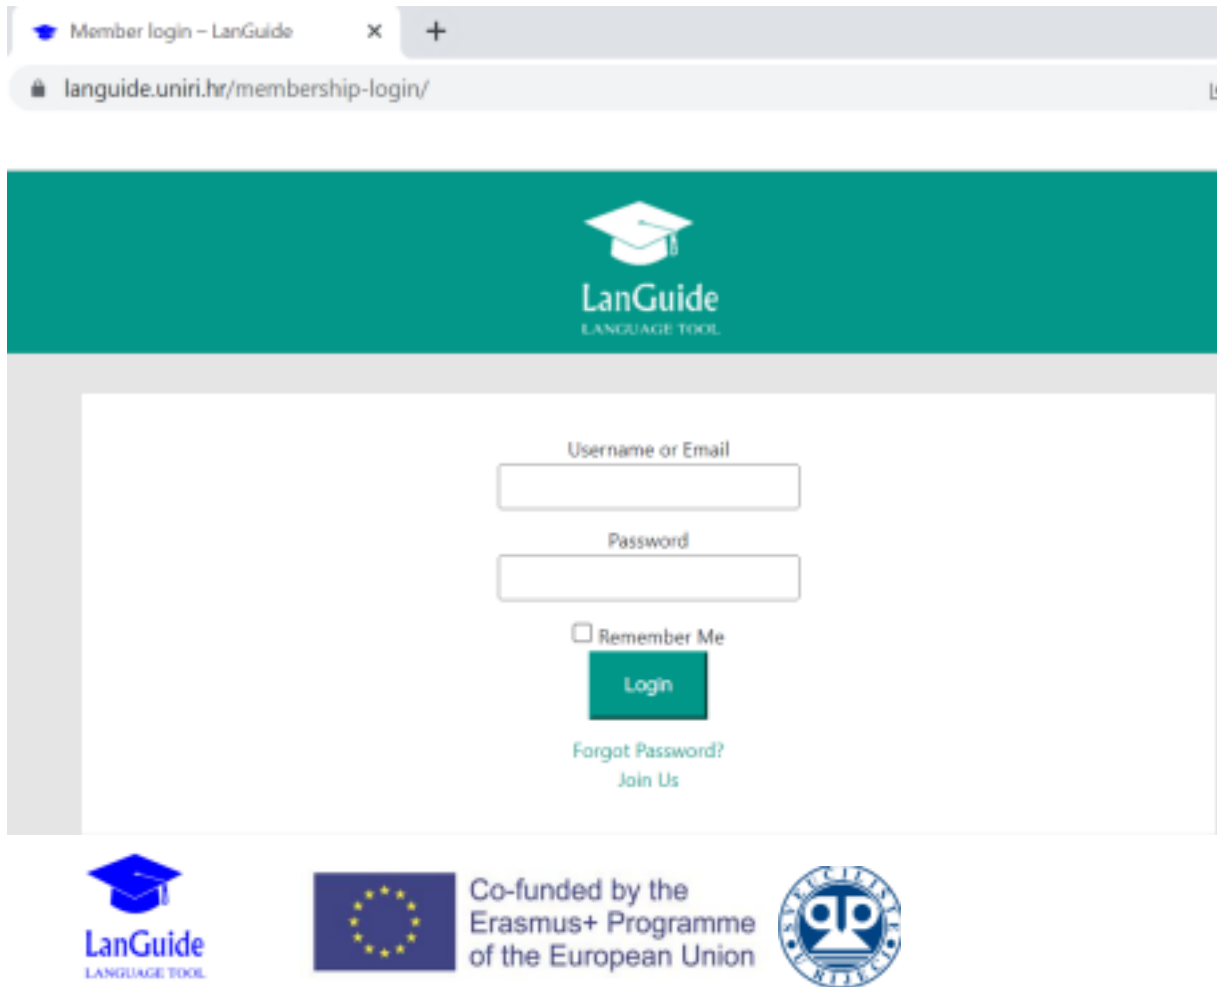

## 4. Sign in form

Enter your credentials into appropriate fields:

- use the *Forgot Password?* link to retrieve your access credentials •

use the *Join Us* link to request access credentials

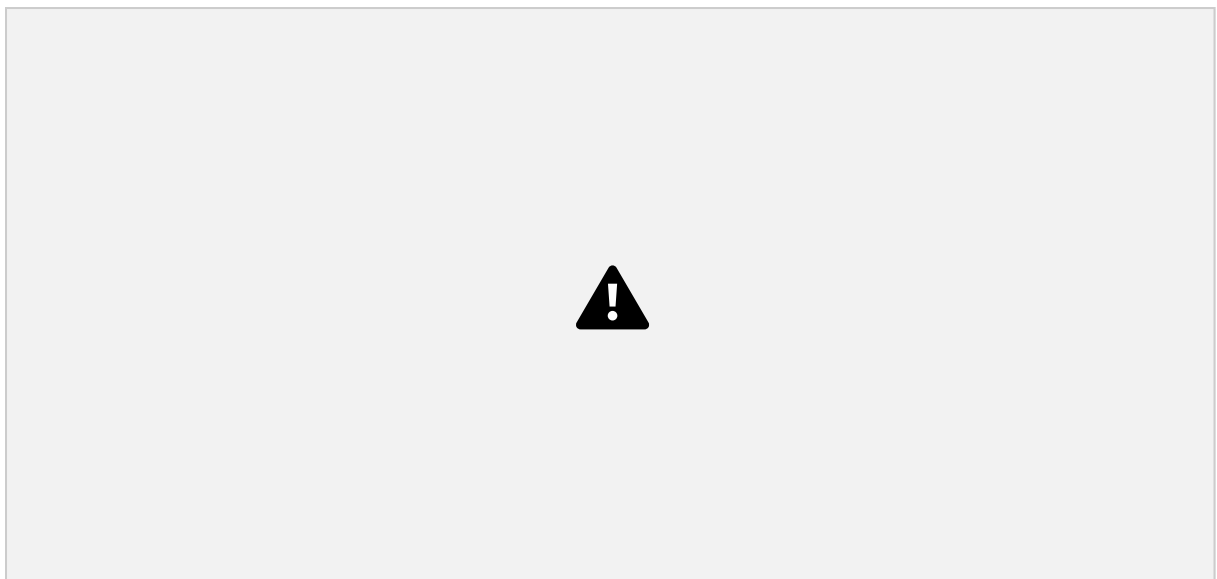

The screenshot shows a web browser window with the title "Member login - LanGuide" and the URL "languide.uniri.hr/membership-login/". The page features a green header with the LanGuide logo (a graduation cap) and the text "LanGuide LANGUAGE TOOL". Below the header is a login form with the following elements:

- A text input field labeled "Username or Email".
- A text input field labeled "Password".
- A checkbox labeled "Remember Me".
- A green "Login" button.
- Links for "Forgot Password?" and "Join Us".

At the bottom of the page, there are three logos: the LanGuide logo, the European Union flag, and the text "Co-funded by the Erasmus+ Programme of the European Union", followed by the logo of the University of Novi Sad.

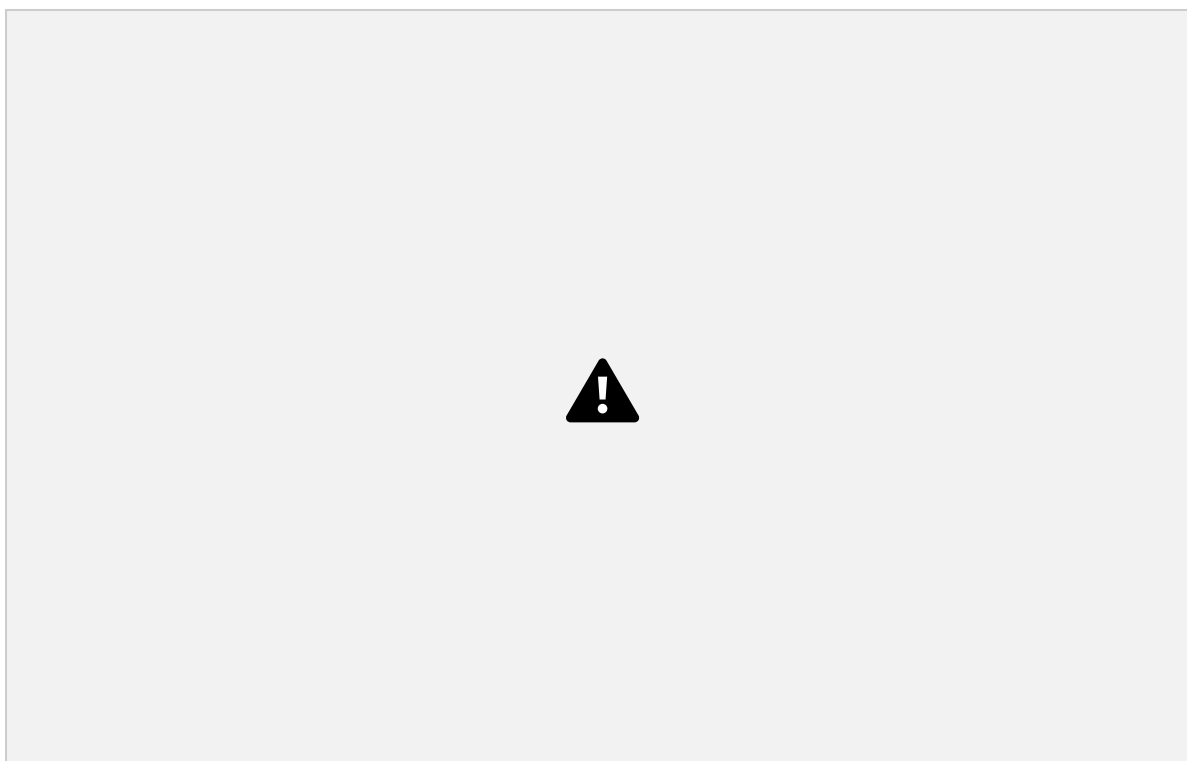

## 5. Main menu

## 6. Profile data

Change your user data by using the My Profile option located near the bottom of the screen:

- use the *Update* button to save the new data

## 7. Browse and download data – Users

Data about the app users can be found in the [USERS option](#) of the main menu • [A](#) - use Download CSV to save the data to your computer • [B](#) - browse data by using Show entries and paging options • [C](#) - search through the entries by using appropriate keywords

A

B C B

8. Browse and

### download data – Results

Results of language learning can be found in the [RESULTS option](#) of the main menu

- [A](#) - use keywords to filter learning results
- [B](#) - browse data by using *Show entries* and paging options
- [C](#) - search through the entries by using appropriate keywords

A  
B C

B

9. Filtering

## results data

Data regarding learning results may be filtered using the following

- criteria:
- user ID
  - exercise ID
  - result (in % or points)
  - max result
  - language
  - skill
  - date range

## 10. Sorting data

All tabular data may be sorted using the arrow symbols located on the right side of each cell in the table header:

- sorting criterion is indicated by a white arrow
- the direction of the white arrow indicates ascending or descending ordering of the data (mouseclick multiple times to change the ordering)

## 11. Browse

### languages used in the LanGuide app – Languages

All languages that are used in the LanGuide app can be found in the [LANGUAGES option](#) of the main menu.
